GENERAL INFORMATION

The summer quarter is an integral part of the school year. The organization and administration of the summer school is on the same basis as that of the regular school year. Instruction is conducted by the regular staff with the assistance of visiting professors.

PURPOSE

In addition to regular undergraduate and graduate functions, the purpose of the summer school is to offer in-service teachers an opportunity to renew their teaching certificates and to work on their degrees. It is possible for a student to complete a semester of work by entering on April 26, and continuing in residence to the end of the summer quarter. Students who desire a full quarter's work may enter on June 7. The dates for registration for a semester, quarter or six-week period will be found listed in the calendar at the front of this bulletin.

The summer quarter also offers an opportunity for regular students to expedite their progress by continuing their studies through the normal vacation period.

Students from other colleges and universities have an opportunity of securing special courses which they may need to complete their programs.

ADMISSION REQUIREMENTS

Students may enroll for summer courses at Mississippi Southern College if they are included in any of the following categories:

1. Former students of Mississippi Southern College who hold satisfactory records.
2. Graduates of accredited high schools.
3. Transfers from junior colleges.
4. Students who are in good standing at other colleges or universities. Such students may be admitted as special students upon presentation of a certificate of good standing from the last institution attended; it is not necessary to present a transcript of credits unless the student plans to become a candidate for a degree at Mississippi Southern College.
5. Persons who have taken and passed the High School Equivalency Examination or the High School Level General Educational Development Test.

It is necessary for all entering freshmen to file with the director of admissions transcripts of their high school work or other acceptable evidences of eligibility for admission. It is necessary for all regular new students who have been enrolled at other institutions, and all regular former students of Mississippi Southern who have been enrolled at another college or university since being enrolled at Mississippi Southern College, to file with the director of admissions complete transcripts of work done elsewhere. All transcripts should be sent to the director of admissions well in advance of registration dates so that permits to register may be prepared before students arrive on the campus.

ACADEMIC REQUIREMENTS

The general regulations governing Mississippi Southern College as set forth in the regular catalog of the college will prevail during the summer school. Students who need assistance in the planning of their work are invited to confer with their major professor or with one of the administrative officers.

THE BASIC COLLEGE

The Basic College is a new administrative unit of Mississippi Southern College in which all undergraduate students are enrolled during their first two collegiate years. The administrative head of the Basic College is the dean of the Basic College. The purpose of the Basic College is to provide a broad educational foundation on which students can build a broad and intelligent interest in the fundamental principles which concern all men.

Students who have attended Mississippi Southern College prior to September 1, 1953, but who have not completed a total of 96 quarter hours of credit must register in the Basic College but can continue with the same adviser as before. Students entering Mississippi Southern College after September 1, 1953, who have not attended college are enrolled in and assigned to an adviser from the Basic College. Students transferring from other colleges or universities and having less than ninety-six quarter hours of acceptable credit are enrolled in and assigned an adviser from the Basic College. Upon completion of 96 quarter hours of credit, students are transferred to the division of their major.

The college core curriculum which is required for graduation provides a general education foundation for all majors and should be completed in the two years the student is registered in the Basic College. Elective courses are available in the Basic College in the student's field or fields of interest. Pre-professional curricula for those interested in specialized professional training are provided in medicine, dentistry, law, engineering, pharmacy,

LAKE BYRON

medical technology, and other areas. In addition, two-year terminal courses are being developed for those who have areas of interest in which such curricula are practical.

The advisers, the dean of the Basic College, the dean of men, and the dean of women serve as a close working unit to provide the best in counseling on academic and personal problems. Individual counseling is available in choosing courses of study and in solving academic, vocational, social and personal problems. A program of testing to determine interests and aptitudes of students who are undecided about their vocations is available. Students with special problems are referred to tutors, clinics, and improvement services in reading, writing, speech, arithmetic, and visual training.

CERTIFICATES TO TEACH

Certain teaching licenses need periodic renewal as set forth in Bulletin 130, (1952 Revision), Mississippi Teacher Education and Certification, State Department of Education. Mississippi Southern College offers a wide variety of courses which may be applied to the renewal of such teachers' certificates. Individuals desiring to have their license renewed should request the Registrar to send a transcript of their credits to the Department of Certification, State Department of Education, Jackson, Mississippi.

PRE-PROFESSIONAL CURRICULA

Pre-Professional curricula are available for students interested in medicine, dentistry, medical technology, law, engineering, and pharmacy. Students who are planning to enter one of these fields should consult the dean of the Basic College for further details on the program.

RELIGIOUS AND SOCIAL OPPORTUNITIES

The Christian Federation plans for the college community as a whole, while the various denominational organizations meet the needs of their particular members. Wednesday evening vespers, often held out-of-doors, are under the auspices of the federation.

Picnics, hayrides, and square dances are planned and sponsored by social and departmental groups. Two traditional events are the chicken barbecue held during the first part of the quarter and the watermelon cutting the last term.

An intramural program is provided through the Division of Health and Physical Education. This includes softball, golf, tennis, swimming, and other sports. A water carnival is held in July.

Outstanding chapel speakers and musical programs are scheduled. Educational tours to points of nearby historic interests are arranged.

PLACEMENT BUREAU

Mississippi Southern College has a year-round placement service for the benefit of its students, graduates and alumni, as well as employers who seek college-trained personnel. The college maintains cordial relationships with many employers, and every effort is made to assist **registered** applicants in finding satisfactory positions in their respective fields.

Those who wish to be notified of job listings in business, government, industry, and in school and college teaching, are urged to register with the Placement Bureau, located in the Administration Building, as soon as they know they will be available for positions.

Graduating seniors should register with the Placement Bureau at the beginning of their last quarter's work, at the latest. Even though they

may not be interested in positions when they graduate, it is wise for them to register with the Bureau so as to have a record on file for future use. Alumni seeking changes or promotions are invited to use the placement facilities.

STUDENT EMPLOYMENT

During the summer quarter, the college will be able to give part-time employment to a number of students. Students who are interested in earning part of their expenses should file an application with the dean of student welfare of the college, prior to the opening of the summer quarter.

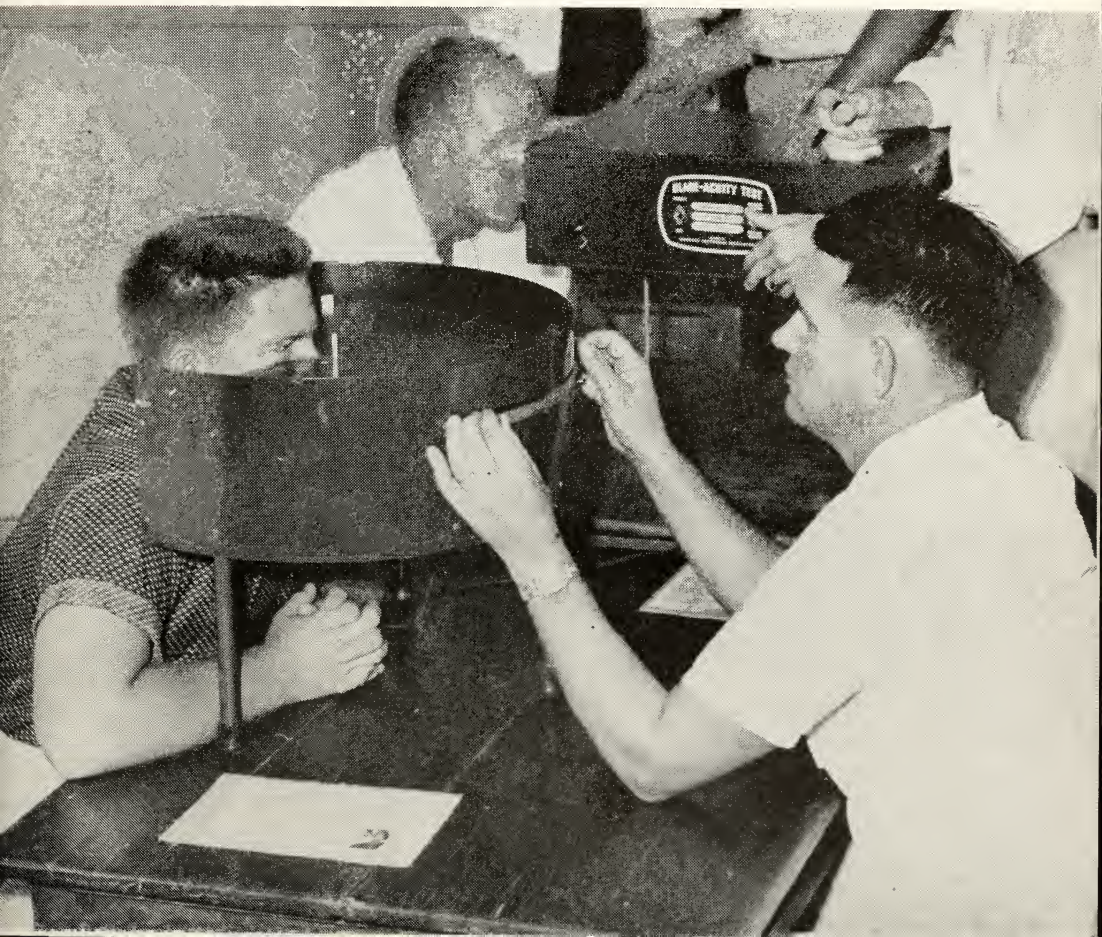
DEMONSTRATION SCHOOL

The Demonstration School, located on the college campus, offers a complete program to elementary and high school students who desire to attend summer school. In connection with the program, observation and student teaching opportunities are available to college students. The Hattiesburg city schools cooperate in the operation of the summer program.

OPPORTUNITIES IN SPECIAL EDUCATION

In Mississippi, and throughout the nation, opportunities for teaching the exceptional or atypical child are increasing rapidly. During a recent

SPECIAL EDUCATION



session of the Mississippi legislature an appropriation bill was enacted which grants financial aid to the public schools in meeting the excess cost of special education. Special classes and services for handicapped children are being established in several of the public school systems better to meet the needs of children with **physical handicaps, mental handicaps, speech defects, impaired hearing, and impaired vision.**

Mississippi Southern College has established course work and opportunities for clinical experiences which qualify the teacher to work in this field. In addition to special course work offered, actual experience is available in the **Speech and Hearing Clinic, Reading and Sight Conservation Clinic, and Psychological Clinic.**

Courses and clinical experience will be available to students in the following areas: speech therapy, remedial reading, education of the mentally handicapped, psychology and education of exceptional children.

THE READING CLINIC

The nationally recognized Mississippi Southern College Reading Clinic is one of the best equipped clinics of its kind in the South. Its testing and individual teaching facilities offer excellent training for prospective specialists in the reading field, and also for teachers wishing to become more proficient in the teaching of reading.

In addition to an excellent collection of professional books, many attractive children's books, and remedial training materials, the Reading Clinic has the best obtainable equipment, including a telebinocular, orthorater, audiometer, tachistoscopes, ophthalmograph, reading films, film-strips, and projectors, tape recorders, and oscilloscope. Practical and systematic training with these is given to teachers enrolled in Reading Clinic courses.

A graduate course sequence leading to the M.A. degree with a major in the psychology of reading, has been instituted to help fill the demand for qualified, well-trained reading specialists. A program of research in this area is also underway.

A new and important function of the Reading Clinic is to give corrective and developmental reading help to students in the Basic College. Individual and small group teaching, as well as regular college classes stressing efficient study habits and effective speed of reading, is available to all college students.

Among the services offered to the community by the Reading Clinic in addition to the training facilities, are diagnostic testing of children with reading problems, and counselling with them and their parents. Remedial instruction by qualified teachers is given to a limited number of children who are retarded in reading.

Children may be referred to the clinic by superintendents, teachers, parents, vision specialists, and other agencies. The fee for a complete educational diagnosis and a suggested program for remedial procedures is $10.00 or a proportionate part, based on ability to pay.

Daily instruction is given to out-of-town and local children throughout the school year and through the summer months. If a child is enrolled in the clinic for individual remedial instruction, the fee is $20.00 per month. It is usually desirable to have a child receive instruction five periods per week. The total number of hours for remedial training required by a child will vary with the extent and type of difficulty exhibited.

The increased demand for teachers who are qualified as reading specialists has brought about the extension of courses to meet this demand. Write to the director of the Reading Clinic for information.

SUMMER THEATRE

The Southern Players will present one major production during the summer quarter. Any regularly enrolled summer school student is eligible to assist in the production.

SUMMER RADIO

The Division of Speech Arts will continue radio programs which have been in progress during the regular academic year. Opportunity will be given for any interested summer school student to participate in presenting radio and television programs.

SUMMER SPEECH AND HEARING CLINIC

The Speech and Hearing Clinic of Mississippi Southern College will operate during the summer months, offering assistance to any regularly enrolled summer school student with a speech deficiency calling for clinical assistance. Non-students may also receive diagnosis and treatment.

SUMMER ORAL READING

One or more reading hours will be sponsored by the Speech Arts Division during the summer months. The faculty and students participating will endeavor to illustrate effective techniques for the oral interpretation of literature. The public will be cordially invited.

WORK IN THE SPEECH CLINIC

GUEST PUBLIC SPEAKERS

At least one public speaker or rhetorician will be on the campus during the summer quarter, lecturing to the summer speech classes. He will also give an open lecture to which the public will be invited.

BAND, CHORUS AND LITTLE SYMPHONY

A special chorus will be organized during the summer quarter as well as a special concert band and little symphony. The choir, band and orchestra will meet for regular rehearsals one evening each week. Special concerts will be given by these organizations during the summer session.

THE LIBRARY

The Joe Cook Memorial Library, which is located in the center of the campus, houses a rapidly increasing collection of books, periodicals, and other types of materials. This includes the Sam Woods Collection of art and rare books. The library is open from 7:45 A. M. to 10:00 P. M. on Monday through Thursday and from 7:45 A. M. to 6:00 P. M. on Friday and Saturday.

BOOKSTORE

The college bookstore is well stocked with textbooks, art materials, and all other instructional supplies needed by the student.

STUDENT HEALTH SERVICE

The Student Health Clinic is available to every regularly enrolled student. One of the college nurses is on duty at all times.

A college physician is available to students for consultation at the college hospital during his regular office hour. Both college physicians are on call.

LIVING ACCOMMODATIONS

The college has available dormitory accommodations for approximately 1350 students. If you desire a room in the dormitory you should fill in the application for admission form in the back of this bulletin and mail it to the director of admissions with the $8.00 room reservation fee. Room reservation fees will be credited to your account. No room reservation deposit can be refunded unless the reservation is canceled ten days prior to the opening of the quarter for which the reservation is made.

Rooms are equipped with the following furniture: two or three single beds with comfortable inner-spring mattresses, a dresser, a chest of drawers, lavatory, chairs, and a study table. Students must furnish all linens, bed coverings, pillow, and curtains for windows and closet doors. Although dormitories are cooled by attic fans, an electric fan will contribute to the comfort of students.

A limited number of houses and apartments are available for married students on the campus.

If the dormitories are filled, living accommodations for women students outside the dormitories must be selected from the list approved by the college authorities.

All students not living in their own homes, whether rooming in the dormitories or in private homes or rooming houses, are subject to the regulations, control, and supervision of the college.

SPECIAL EVENTS FOR THE SUMMER

ADMINISTRATORS' CONFERENCE

The third annual Administrators' Workshop Conference will be held during the first term of the summer quarter, 1954.

The purpose of this workshop conference is to offer an opportunity for the school administrators of Mississippi and of the South to study and discuss current problems in education with nationally known educators. The bringing of these leading educators to our campus is a service to the administrators and prospective administrators of this area.

The workshop will follow a plan of an hour lecture each morning by the visiting educator. This will be followed by an open forum discussion. The groups with similar problems or interests will meet together for intensive study and will be guided in their deliberations by the consultants. The workshop will carry one and one-half hours credit per week. Participants may enroll for all or for separate weeks.

Selection of visiting lecturers is still tenative; however, these will be nationally known authorities in their fields. In previous workshop confer-

A CONFERENCE GROUP

ences such nationally known authorities as these have participated: Dr. Harl R. Douglass, Dean, College of Education, University of Colorado; Dr. Paul R. Mort, Professor of School Administration, Teachers College, Columbia University; Dr. Donald P. Cottrell, Dean, College of Education, Ohio State University; Dr. John Guy Fowlkes, Dean, College of Education, University of Wisconsin; Dr. N. L. Engelhardt, Educational Consultant, New York, New York; Dr. Henry B. McDaniel, Professor of Education, Stanford University; Dr. Alice V. Keliher, Professor of Education, New York University; and Dr. Maurice E. Stapley, Dean, School of Education, University of Indiana.

For information concerning the Workshop Conference, or further reference, write Dr. Ralph S. Owings, Head of Department of Educational Administration and Professor of Educational Administration, Mississippi Southern College.

THE READING CONFERENCE

An annual feature of the Reading Clinic program is the Reading Conference (Education 104 A, B, C and 534) which will be held during the week of June 14, 1954.

The theme for the 14th annual Reading Conference will be "Systematic Reading Instruction." A copy of the complete program will be available in April. Those interested in securing advance information about the 1954 program may write Dr. Ralph C. Staiger, The Reading Clinic, Station A, Hattiesburg, Mississippi. Plans are being made once again to have nationally known speakers discuss this subject, and to provide many more demonstrations and organized discussion sections.

SUMMER CONFERENCES FOR SOCIAL STUDIES TEACHERS

(History 192a-492a)

Each summer the Division of Social Studies brings to the campus a number of outside speakers to provide Mississippi teachers with illustrations for their classes. In the past these speakers have included such persons as the chief justice of the Mississippi Supreme Court, the Mississippi secretary of state, the Mississippi aatorney general, members of the legislature, judges of the circuit and chancery courts, and Mississippi historians.

One session each summer is usually devoted to a Saturday field trip, to some point such as Vicksburg, or historic points on the Mississippi coast.

The conferences are held one afternoon each week (Thursday) from 4 to 9 o'clock, with time out for supper. Students wishing academic credit may elect the conferences as History 192a or 492a. Since there is no duplication from year to year, the course may be taken twice.

Auditors and visitors are always welcome.

THE EXCEPTIONAL CHILD IN THE PUBLIC SCHOOL

The summer quarter is usually the time when a conference on special education is held, dealing primarily with the needs of the exceptional child in Mississippi schools.

Last summer the two-day conference was an unusual success. Plans for the summer quarter, 1954, are now underway. It is expected that a conference will be held in the nature of a joint enterprise in which college faculty, representatives of the Mississippi State Department of Education,

teachers working in specialized fields and graduate students will participate.

Interested persons will please address:

SPECIAL EDUCATION SERVICES
Mississippi Southern College
Station A
Hattiesburg, Mississippi.

MUSIC EDUCATION WORKSHOP

The Division of Fine Arts in cooperation with the Mississippi State Department of Education has scheduled a Music Education Workshop to be held on the Southern campus from August 9 to August 20, inclusive. It is planned to have an outstanding national music educator to serve as the main consultant. In addition, Mr. William S. Haynie, State Supervisor of Music, as well as members of the Mississippi Southern College Music Department will assist in the conference.

Graduate or undergraduate credit will be allowed at the rate of 1½ quarter hours per week. For further details write either Mr. Frank E. Marsh, Jr., Chairman, Division of Fine Arts, or Dr. Roger P. Phelps, Co-director of the workshop.

THE ANNUAL PICNIC

FIRST ANNUAL WORKSHOP ON SAFETY EDUCATION IN THE JULY 26-31

Interest groups will discuss such topics as adequate safety programs in the elementary school, uniform reporting of accidents, safety in transportation, fire and disaster safety, teacher liability for school accidents, bicycle and vacation safety, etc.

The workshop will be staffed by outstanding resource people representing the National Safety Council, the State Highway Patrol, the National Commission on Safety Education, the National Insurance Institute, and others.

Graduate and undergraduate credit in education and in health and physical education may be earned.

THE INSTITUTE OF LATIN-AMERICAN STUDIES

The principal aim of the Institute of Latin-American Studies is to foster and promote warmer and friendlier relations between the Americas. To implement this aim the Institute offers two general types of courses.

One of these is for Latin-American students who come in steadily increasing numbers for the purpose of learning or perfecting their knowledge of the English language, of studying our customs and culture, and to learn how we live, work, and play. This is called an orientation course for Latin-Americans. After taking one or more courses, these students usually take the English proficiency examination and, if they pass, they are issued a certificate of proficiency in English which indicates the extent to which they are qualified in the language to profit from college or university courses in the United States. Additional information about these courses may be obtained by writing to the Institute.

The second general type of course is planned and organized for the purpose of offering the necessary basic cultural education and training to North American students who wish to prepare for a worthwhile and interesting career in inter-American affairs. These courses are called Latin-American Studies and provide the student with an important understanding of Latin-American culture and customs, the psychology, philosophy, history and way of life of the people, an ability to use the Spanish or Portuguese language adequately and training in the particular field of trade, commerce, diplomatic relations, etc., in which the student is interested. There is also an opportunity to obtain training in the teaching of English as a foreign language for those who wish to teach the language to Spanish or Portuguese-speaking people either in the United States or in Latin-America.

The student who is interested in inter-American affairs will find many attractive opportunities for study at Mississippi Southern College. In addition to the prescribed course work there are the advantages based on geography. The clinic is ideal for study the year around, and the college is located only seventy miles from the gulf and 120 miles from New Orleans, the front door facing Latin-America. The proximity to Latin-America and the number of Spanish-speaking students who come to the Institute make of the college a rich, neutral laboratory for learning Spanish, Portuguese, and Latin-American customs, and for training in inter-American affairs or in the teaching of English and Spanish as foreign languages.

The various departmental and divisional offerings in the field of Latin-American studies have been coordinated and organized by means of the Institute into several inter-departmental curricula which usually are not

available through the regular university system of majors. These curricula lead to the following degrees and certificates:

1. The B.A. in Latin-American studies with emphasis on culture and history.
2. The B.A. degree in foreign service.
3. The B.A. degree with a major in foreign trade.
4. The B.A. degree with a major in economics and related fields, with a minor in Latin American studies.
5. A two-year course for secretary-interpreters or receptionists specialing in inter-American relations, leading to the certificate of secretary-interpreter.
6. A one-year intensive course in Latin-American studies for graduate students, business men, and technicians.
7. The B.S. in Latin-American studies leading to certification as a teacher of Spanish.
8. The B.S. in Latin-American Studies which prepares for service careers in Latin-America in the following areas:
   1. Elementary education.

SAFETY EDUCATION

2. Reading specialist.
3. Home economics and home making.
4. Health Education.
5. Sanitation and sanitary engineering.

All candidates for degrees in Latin-American studies are required to pass a proficiency examination in Spanish or Portuguese.

For additional information concerning Latin-American studies write to the Director of the Institute for a copy of the **Bulletin.**

WORKSHOP FOR SCHOOL LUNCH MANAGERS

The seventh annual Workshop for School Lunch Managers will be held July 19-31, 1954.

The purpose of this workshop is to contribute to the education of lunchroom managers so that they may provide every school child with low cost, adequate, well-planned meals, properly cooked and attractively served.

Workshop groups, and discussions are planned. Topics include: food selection, purchasing and preparation, organization and management, care and use of equipment, sanitation, record keeping, and training employees.

GULF COAST RESEARCH LABORATORY

The Gulf Coast Research Laboratory at Ocean Springs, Mississippi, is open to our graudate and advanced undergraduate students for research work during the entire year. Class work at the Laboratory for advanced undergraduate and graduate students is given from June through August. The student will be able to earn nine quarter hours during the last term of the smmer, and as much as six quarter hours for the first term of the summer. Credits earned for work at the Laboratory is recognized by all senior colleges of the state and therefore throughout the United States. Four different laboratories are available for graduate and undergraduate work. A new fire-proof and well equipped research laboratory with running salt water aquaria is open to graduate students for research.

All majors in biology are urged to spend at least six weeks at the laboratory before graduation. Graduate students should especially plan to take advantage of the excellent facilities at the laboratory for studying marine life at first hand. The varied fauna and flora of the semi-tropical waters of Mississippi Sound and the waters surrounding the out lying islands afford abundant research material for original work. A wide variety of unsolved biological problems concerning the life of this region may be utilized as material for either the master's or doctor's thesis.

The Gulf Coast Research Laboratory students will have the opportunity to work under the direction of professors who are specialists on varied forms of marine life such as fishes, crustaceans, marine algae, etc. A large amount of pioneer work needs to be done on the varied forms of life found within this region. The future Mississippi biologists should prepare themselves to do this original work within our state. Opportunities for research at the Laboratory are practically unlimited.

Fees for the courses given at the Laboratory during the summer will be found listed under course descriptions given below. Veterans may continue to use financial aid afforded by the G. I. Bill while in residence at the laboratory.

Geology undergraduate and graduate students are urged to take advantage of the excellent training given in marine sedimentation given at the Laboratory after the close of the summer term at Mississippi Southern College.

Courses to be offered at the Gulf Coast Research Laboratory in the summer of 1954 listed according to number in the Mississippi Southern catalog are:

Biology 152—Taxonomy of the Flowering Plants of the Coastal Plains. Six hours. Laboratory fee—$25.00.

Biology 153—Marine Invertebrate Zoology. Nine hours. Laboratory fee—$36.00.

Biology 156—Fishes of the Gulf. Nine hours. Laboratory fee—$36.00.

Biology 157—Marine and Fresh Water Algae. Three hours. Laboratory fee—$15.00.

Biology 158—Comparative Physiology of Marine Animals. Four hours. Laboratory fee—$25.00.

Biology 159—Parasitology of Marine Animals. Four hours. Laboratory fee—$25.00.

Biology 160—Marine Coastal Ecology. Four hours. Laboratory fee—$18.00.

Biology 188—Techniques in Biology for High School Teachers. Nine hours. (May be taken for graduate credit by registering for Biology 488). Laboratory fee—$36.00.

Conservation 147—Nature Study and Elementary Science. Four hours. Laboratory fee—$18.00.

Geology 154—Problems in Marine Sedimentation. Four hours. Laboratory fee—$25.00.

THE GRADUATE SCHOOL OF EDUCATION

From the founding of Mississippi Southern College, the preparation of teachers has been one primary purpose. It remains a most significant objective of the college. The Graduate School of Education has come into being to further implement this objective.

The graduate curriculum is designed to meet the needs of school administrators, supervisors, physical education teachers, and teachers in the various areas in both elementary and secondary levels. The curriculum has been augumented to include home economics education, music education, pure and applied music, speech education, communications, and the psychology of reading, with the emphasis always on raising the level in the teaching profession.

Some students may wish to refresh their professional preparation without pursuing a course which leads to a higher degree. Some may desire to complete work for a Master of Arts degree or a Master of Education degree (second year graduate work.) Others may want to take further work just for the sake of keeping up with what is going on in the field of education or related fields. Minors may be taken by those interested in secondary education or elementary education in appropriate subject matter fields.

All the courses are offered in the Graduate School of Education that are required to meet the full programs as set forth in the new law governing the certification of teachers for the AA certificate in school administration and supervision, health and physical education, the various subject matter fields in secondary education, home economics education, music education, and elementary education, including elementary principalships, supervisors, and teachers .

Those interested in securing further information concerning graduate work may write the Dean of the Graduate School of Education, Station A, Hattiesburg, Mississippi.
